PROFILE

I am a Wisconsin based designer, artist, and photographer, with an Associates Degree in Graphic Design and Technology, and Technical Diplomas in Photography and Print Technology from Northeast Wisconsin Technical College.

I'm always observing the world around me, constantly seeing it through new lenses, which helps keep my designs fresh and different.

My passion is exploring all that life has to offer. My biggest goal in life is sharing the grand beauty of the world with everyone. I am determined to help everyone I meet or influence with my designs. I value a lot in this world but one thing that is most prominent is my connections to other people and to the earth.
